# Battery Powered Retrieve

Specially developed to protect unpowered or infrequently used assets to avoid draining the battery. Battery Powered Retrieve has its own power source and does not need to be wired into the electrical system of your vehicle. The unit is easy to fit and suitable for all kinds of vehicles and assets from quad bikes, horse boxes, trailers and catering vans to classic cars and vintage motorbikes.

Battery Powered Retrieve uses our unique and patented VHF technology and is operated by all UK police forces. The police can employ the precision of the VHF technology to track a stolen vehicle to its exact location for a fast and effective recovery of your stolen assets.

Battery Powered Retrieve is a one-time use product. In the event of theft, the customer will be required to purchase a new unit and the remaining subscription can be transferred.

## Battery Powered Retrieve features

- Our unique patented VHF technology, enabling us to track stolen vehicles even when they are stored in lock-ups, containers or underground car parks
- A long battery life with up to 5 years standby
- Full nationwide support from the UK police force
- High tech VHF tracking that is not affected by GPS/GSM signal jammers
- Easy installation in vehicles or hired assets
- Tracking coverage throughout the UK as well as France, Spain, Poland, Italy, Luxembourg and Holland
- Thatcham S7 Accredited
